## Thankful Tree

It's easy to make a Thankful Tree for your home! Grab some construction paper, markers, and tape next time you're at the store, and you're ready to go.

Decide what wall is going to be your Thankful Tree wall. Remember, your tree is going to be up all November long so choose carefully. Create a simple trunk and branches out of brown construction paper at the beginning of the month. Now, cut out or tear leaves from green, yellow, orange and red construction paper. Store them near your tree or on the table. Put some crayons (or markers) near-by but out of reach of mischievous hands.

Throughout the weeks of November, find time to write or draw what you're thankful for on the leaves and add them to the tree. This could be nightly during dinner or just after naptime. Choose a time that works well for your family. Help your preschooler draw something for his leaf, and then fill one out for yourself. If everyone in the family participates, you'll have a wall full of thankfulness in no time. Hey, if Grandma comes over for a meal, have her fill out a leaf too.

At the end of the month, block out some special time to go through the whole tree and remember all that you were thankful for. You can even save your leaves as a memory. A fun option would be to purchase a small photo album at the dollar store and place your leaves in it for safekeeping. Then, you can pull it out next Thanksgiving to relive your memories.

Who knows, the Thankful Tree may become a tradition in your house.
